We are collecting and processing this personal data as a preventive measure to mitigate the risk of a Coronavirus disease (COVID-19) outbreak on the hash.

Also, we are collecting personal data to be able to support local authorities in the case of an outbreak resulting from our hashing activities. In such a case, the data will help the authorities to trace human-to-human transmission of the Virus.

If, within 14 days of hashing today, you suffer any of the above Covid-19 symptoms or are tested positive for Covid-19, please advise _____ as soon as possible.

We do not want to increase the potential risk of spreading the virus by sharing pens to complete this form and then handling them for collation and storage, so you have been asked to verbally confirm the above declaration and provided your details to iH3 accordingly.

This document will be retained for 4 weeks from today's date, and then destroyed.

Having providing us with this declaration and your personal details, we will presume that if you continue to run the hash today, that you have confirmed your agreement to the hash storing these details and passing them to the authorities in the event that one or more of today's hashers are subsequently diagnosed with Covid-19.

If you do not agree, then please do not hash with us today, but do please come back when the pandemic is over!
